Dear (Hiring Manager):

I am an experienced, knowledgeable, and business savvy Senior Systems Engineering, Integration, and Architecture Leader, with a commendable track record in capacity planning, directing multimillion-dollar projects, correctly interpreting client BI requirements, and utilizing new migration strategies to maximize business and technology support strategies.

I demonstrate a proven background in government and private sector integration, acknowledged for strong leadership, technical proficiency, and astute understanding of cost-cutting operations. Easily establishes rapport with individuals from diverse backgrounds and professional levels.

I consistently deliver exceptional results under tight deadlines utilizing strategic thinking, innovative problem solving, flexibility, and strong change management negotiations. I demonstrate consultative leadership qualities and proven technology consolidation concepts coupled with infrastructure reliability, and effective and reliable business continuity.

If you are searching for a proven Enterprise Architecture and Integration Leader who will generate significant insight in client service, support, and client/staff training initiatives; please contact me to arrange an interview. I am eager to learn more about the challenges facing your company and discuss how I will make a difference.

Sincerely,

Client Name
